Total of Tables 1, 2 & 3		>120

Procedures for Reviewing, Updating, Modifying or Terminating Agreement

The Program Director, of the Didactic Program in Dietetics, at Queens College will monitor and periodically review this agreement with the Dietetic Technician Program Director at Suffolk Community College and introduce changes, or terminate the agreement, after approval by administrative offices of both institutions.

Procedures for Evaluating Agreement

Upon graduation from SCC and admittance into QC, each participant in the program will be advised by the Didactic Program in Dietetics advisor who will ease the transition from SCC to QC and provide continuing guidance until the successful completion of the BA. Advisors will compile performance data on their advisees. This information will be collected and analyzed to assess the program's success and develop recommendations for changes as needed.

Procedures for Publicizing Agreement

The program will be described in the Suffolk Community College catalog and SCC faculty will advise students of the benefits of the articulation agreement including:

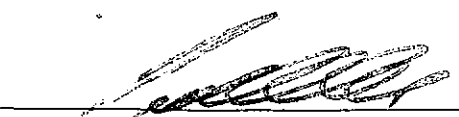

- a strong academic program initiated at SCC and continued through this articulation agreement at Queens College
- an advisement program which assigns students a specific counselor at SCC and then at QC to ensure that they progress successfully through, and in compliance with, the program.

Sample Sequence of Courses

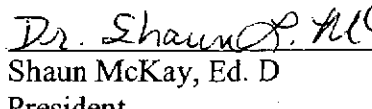

Year 1 Suffolk Community College				Year 2 Suffolk Community College			
FALL		SPRING		FALL		SPRING	
COURSE	Cred.	COURSE	Cred.	COURSE	Cred.	COURSE	Cred.
